Danube River Basin District
Map 6: Land Use

Legend:
- Danube River Basin District (DRBD)
- Danube
- Tributaries (river basins > 1,000 km²)
- Lakes (surface area > 100 km²)
- Black Sea Coastal Catchments
- Lagoons (surface area > 100 km²)
- Canals

Aggregated land use classes:
- Coniferous forest
- Deciduous forest
- Grassland
- Wetlands
- Arable land
- Urbanized area
- Sparsely vegetated area
- Sea

Citizens:
- >1,000,000 inhabitants
- 250,000 - 1,000,000 inhabitants
- 100,000 - 250,000 inhabitants

The land use layer is based on CORINE data from 1999 at a 250 x 250 m ground resolution. For HR, CZ, HR and UA the 1 km² ground resolution PELLEM data from 1997 is used. The data were aggregated to 8 main land use classes.

This product includes geographical data licensed from European National Mapping Agencies. EuroDistMap v1.0 (EUDIAGRAM) was used as the basis for 2004/20 data for AT, CH, SI, HR and HR. The data for the other countries is based on VMAP Level 0 data from INHM. The outer border of the DRBD is based on national information from DE, AT, CH, CZ, DK, EK, FI, HU, GR, CL, EK, FNC, UA and MD. For YK, AL, MK and FY the data of the European Commission (Joint Research Centre) was used.
