

Danube River Basin District: Potential Accident Risk Spots

MAP 8

The risk of sites presented on the map is to be regarded only as potential and is derived from national data on quantities of water-endangering substances at particular industrial sites. Assessment of the real risk associated with specific sites requires a thorough site analysis and evaluation of safety measures applied. This will essentially remain a national task.

Product of ICPDR, Vienna

This product includes geographical data licensed from European National Mapping Agencies. EuroGlobalMap v1.0 (EuroGeographics) was used as the basic topographic layer for DE, AT, CZ, IT, SI and HR. The data for the other countries is based on VMAP Level 0 data from NIMA. The outer border of the DRBD is based on national information from DE, AT, CH, CZ, SK, SI, HR, BA, CS, BG, RO, UA and MD. For PL, AL, MK and IT the data of the European Commission (Joint Research Centre) was used.

Prepared by FLUVIUS, Vienna, June 2005; The production of this map was financially supported by
